PIUSI EX56 DRUM KIT

PANTHER EX 56 DRUM is the ideal choice for transferring gasoline and other flammable liquids, specifically designed for drum applications.

The ATEX Dispensing Unit for Safe and Efficient Applications

When it comes to transferring flammable liquids between tanks with maximum safety, PIUSI provides cutting-edge solutions with its dispensing systems. PANTHER EX 56 DRUM is the ideal choice for transferring gasoline and other flammable liquids, specifically designed for drum applications.

This complete dispensing unit includes:

- PANTHER EX 56 ATEX, certified for use in explosive atmospheres.
- Telescopic suction tube, allowing direct connection to the drum for fast and reliable installation.
- Integrated nozzle holder, positioned near the pump for organized and efficient system usage.
- K33 ATEX mechanical flow meter.
- Impurity filter.
- PANTHER EX 56 DRUM ensures clean, practical, and safe operations. Compliant with European ATEX directives, this transfer unit guarantees maximum safety and reliability when handling flammable liquids.

Choose PANTHER EX 56 DRUM for a professional, secure, and high-performance transfer solution.

FEATURES & BENEFITS:

- Robust structure
- Flanged components
- Noise filter
- Thermal protection
- Integrated bypass valve
- Suction tube with integrated filter
