

PIUSI

**SIMPLE, INTUITIVE,
SMART FUEL MANAGEMENT SYSTEM**

Available on the iPhone
App Store

GET IT ON
Google Play

BE SMART AND ENTER THE NEW ERA OF FUEL MANAGEMENT!

PIUSI B.SMART:

the name carries its meaning!
An **intuitive** and simple
Fuel Management System -
composed by hardware and
software (APP for drivers and
a web APP on Cloud for fleet
managers) driven by **Bluetooth**
technology - to easily monitor
and manage any fleet; from the
smallest to the biggest.

**Are you ready
for the future?**

PIUSI B.SMART:

MONITOR & MANAGE YOUR REFUELINGS

1

MANAGE THE SITE

Set, activate and monitor your site.

2

CHECK REFUELING

Check all fuel transactions at a glance.

3

REAL TIME

Receive all information from the site immediately*

* Real time only in areas where Wi-Fi or mobile network is available. Otherwise, data will be synchronized once network is accessible.

ONE SOFTWARE, MANY DISPENSERS: SUITABLE FOR ANY FLEET SIZE

piusi.com

→ EXAMPLE A Single-site installation with one dispenser

PIUSI B.SMART is a unique **expandable** system: fleet managers just have to focus on the dispensers needed for the site; the software is **always included “in the box”** and is **suitable for any fleet size**: from the smallest to the biggest, single and multi-site.

As the PIUSI B.SMART software is **Cloud based**, it doesn't require any installation on a local PC to allow fleet managers to **check the site from anywhere** and monitor fuel transactions.

→ EXAMPLE B Multi-site installation with several dispensers

PIUSI B.SMART AS SIMPLE AS A CLICK

piusi.com

FILL IN THE INFORMATION

The APP for drivers just needs a smart device with Bluetooth to work properly: **once the APP is open, the smart device immediately connects to the dispenser to start the refueling operation.**

DISPENSER

Choose the dispenser

VEHICLE

Choose the vehicle or insert the registration number

ODOMETER

Insert the mileage

1

2

3

REFUELING

PRESET/FILL THE TANK

Choose the preset option or fill the tank according to your need

TOTAL

Check the ongoing transaction on your device or on the dispenser's display

RECEIPT

Once stopped, a receipt is displayed on the smart device (and in real time* on the manager's Web APP)

4

5

6

* Real time only in areas where Wi-Fi or mobile network is available. Otherwise, data will be synchronized once network is accessible.

PIUSI B.SMART: ADVANTAGES FOR DRIVERS

piusi.com

Available on:

PIUSI B.SMART is expressly developed to **support and simplify all refueling operations** both on the drivers' and on the manager's side:

- It requires only a **smart device** to work; **driver key is not mandatory**
- It works with all **iOS** and **Android** mobile devices
- The B.SMART APP is available both on **APPLESTORE** or **PLAYSTORE** simple to find and free to download
- As the APP is connected via **Bluetooth**, it works even if no network is available*
- If needed, the system can also work with the **optional driver key**

* It requires prior user authentication via the internet. Transactions will be transferred when the network becomes available again.

PIUSI B.SMART:

ADVANTAGES FOR MANAGERS

PIUSI B.SMART is a Fuel Management System, with the advantage of using **Cloud technology** for the software and the network (Wi-Fi, LAN or mobile) to control and manage the fleet:

- **No software installation** required (Cloud based)
- The **same software** fits any fleet
- Quick and easy to use, allowing you to save time and money
- **Expandable** and suitable for any fleet size
- **Real time** feedbacks from the site*

API

Connect your ERP to B.SMART with the integrated API interface.

*Real time only in areas where Wi-Fi or mobile network is available. Otherwise, data will be synchronized once network is accessible.

MANAGE THE SITE:

piusi.com

SET, ACTIVATE AND MONITOR YOUR SITE

CONFIGURE

Create your site,
set up dispensers and
enable drivers.

➔ PIUSI B.SMART allows to enter all the parameters useful to **manage the site properly**: locations, the name of the fuel dispensers, drivers, categories and vehicles:

MANAGE

Add or delete sites,
dispensers
and users.

- **Easy installation** procedure
- **Unique code** to identify each site
- **Detailed icons** help to easily identify dispensers for a complete overview of installed devices
- **Avatar** of all drivers

CHECK

All the information
always under
control.

CHECK REFUELINGS: ALL TRANSACTIONS AT A GLANCE

➔ PIUSI B.SMART allows to **keep track of all the transactions** and refueling operations made. A user-friendly interface helps to **gather** and **filter** information to get a real control at a glance:

- **Check** and **control** transactions
- **Receive** and download the related receipts
- **Export** data to .pdf or .xlsx

REAL TIME:

piusi.com

IMMEDIATELY RECEIVE ALL FEEDBACKS FROM THE SITE

One of the main features of PIUSI B.SMART is the **real time** function that allows to keep track of all the transactions immediately*:

UPDATE

Update information and data in real time*.

CONTROL

Control and collect all the information in every condition*.

DRIVER
Mobile APP
B.SMART

Receive a receipt of the transaction once completed*.

RECEIVE

MANAGER
Web APP
B.SMART

* Real time only in areas where WI-FI or mobile network is available. Otherwise, data will be synchronized once network is accessible.

PIUSI B.SMART: ALL-IN-ONE FMS FOR ALL APPLICATIONS

Unlimited number,
to suit any fleet size.

DISPENSERS

It works via Bluetooth;
no LAN or Wi-Fi
network required.

BLUETOOTH

APPLICATIONS

piusi.com

FOR THE B.SMART RANGE

➤ **CUBE** B.SMART DC
➤ **MCBOX** B.SMART DC

➔ The **CUBE B.SMART DC** and **MCBOX B.SMART DC** versions allow to install the dispenser everywhere.

The B.SMART range **is flexible and simply adapts to all applications:** DC or AC versions as well as new upgrades to meet the most demanding requirements. One of a kind, a system which **represents a turning point in the FMS sector**; all from one supplier.

MCBOX B.SMART DOUBLE PUMP

 Now, the **MCBOX B.SMART** can control up to **2 pumps** with the same top-quality performance.

B.SMART ADDITIONAL FEATURES

TANK WATCHDOG ADD-ON

piusi.com

B.SMART Tank Watchdog is the perfect add-on for a **complete and updated control of the stock**. It allows you to:

TANK WATCHDOG

TANK LEVELS

Adding the level indicator OCIO, the system allows you to monitor the fluid level in **your tanks in real time** and **gives alarms in case of malfunction** or low levels. A perfect add-on for a complete and updated control of the stock. You can connect also any 420 mA or 0-10 V fluid gauge or run the system without any gauge thanks to the "virtual tank" option:

- **Set level alarms** and get notifications on the tank level
- **Possibility to configure** high level or low level alarms
- **Stop the pump** according to the level of the fluid
- **Send an automatic e-mail to notify** when you reach the level alarm set

B.SMART ADDITIONAL FEATURES

TANK WATCHDOG ADD-ON

- **Monitor** the tank level
(add fluid loads and unloads and adjustments)
- **Set level alarms**
- **Manage suppliers**
- **Follow** inventory price values and trends
- **Access and download** reports from anywhere

2 TANK WATCHDOG FLUID PRICE & VALUE

You can always have at your fingertips the fluid inventory value & quantity: you can **define the refuelling price** and **verify the current inventory value**:

- **Manage suppliers of the fluids** to keep track of the date, price and quantity bought
- **Get real time data** of the value of your inventory
- **Follow** fluids price trends
- **Access and download reports** from any internet connected device thanks to the software cloud

B.SMART ADDITIONAL FEATURES

piusi.com

FUEL ECONOMY ADD-ON

Enhance your system and become even more **smart** with the **FUEL ECONOMY ADD-ON** for B.SMART!

Thanks to this new module, you can now **completely manage and increase the profitability of your fleet**:

FUEL ECONOMY

FLEET MANAGEMENT & LIMITS

Thanks to this new add-on, you can:

- Add to the B.SMART WEB APP system **all the vehicles** of your fleet
- Group all the vehicles according to a **specific and personalized setting**
- Add to the WEB APP the images of your vehicles and drivers for a **quickest and easy identification**
- **Set drivers and vehicles limits** based on quantities or time frames

QR CODE IDENTIFICATION

The QR code allows to **identify immediately the vehicle with 100% certainty**: it saves time during the refuelling and reduces the risk of human error.

The label is sized to **PERFECTLY FIT TO ALL VEHICLES** and can be placed closed to the tank.
The extra-resistant glue and the laser scratchproof engraving guarantee the maximum durability over the time.

B.SMART ADDITIONAL FEATURES

FUEL ECONOMY ADD-ON

2

FUEL ECONOMY

CONSUMPTIONS REPORT

Thanks to this new add-on, you can have detailed reports of:

- Fuel/AdBlue® dispenses
- Vehicles' consumptions, spotting deviations vs standard
- Drivers' consumption on vehicles, tracking the driving behaviour of the operator
- Spot drivers' high fuel consumption
- Add on-road transactions highlighting also fuel/AdBlue® costs and the service station used in order to have a **complete overview on the trend/activities of both drivers and vehicles**

SPOT

Spot unexpected fuel consumptions by vehicle or driver.

B.SMART ADDITIONAL FEATURES

piusi.com

MAPLY ADD-ON

Benefit from geolocation tracking and access control in an array of industries: construction, mining, excavation, drilling, landscaping, agriculture, and more.

- Reduce fuel waste
- Increase company profitability
- Monitor & control fuel dispensing

MAPLY GEOLOCATION

- Geolocate fuel transactions and display them on a map;
- “report on map” gives an overview of fuel dispensing. Clicking on a fuel transaction you get all the relevant data (quantity, date, time, vehicle refuelled, etc.)

2

MAPLY

MANAGE FLUID HANDOVER FROM FIXED TO MOBILE TANKS

- Automatically manage portable tank loads;
- fuel transfer information will be managed inside the **B.Smart reporting system**, increasing information effectiveness.

- Restrict the dispenser's area of use through **Geo-Fencing**;
- group fueling dispenses into defined areas (working areas) such as construction sites, mines or plots of land.

GROUP TRANSACTIONS

3

MAPLY

3rd PARTIES VEHICLES REFUELLING

- Track fuel transactions on **third-party vehicles**;
- possibility to send e-mail **notifications** and add operator's notes.

B.SMART Maply add-on is working both with AC and DC dispensers and with our PIUSI SUPREME pump once upgraded to B.SMART

PRODUCT RANGE

PIUSI B.SMART **includes a wide range of fuel dispensers** that can uniquely suit various requirements in terms of flow-rate demand, voltage and technical specifications.
