

BM SELF BUNDED ADBLUE TANKS

**MADE IN
AUSTRALIA**

The Bluequip BlueMaster Self Bunded AdBlue Tanks are double jacket tanks made from high-quality polyethylene. They are U.V resistant and keep your AdBlue/DEF at the optimum filling temperatures always.

FEATURES & BENEFITS:

- Thermal insulation keeping the AdBlue within an appropriate temperature range
- Double jacket tank construction, leakage detection system, fill indicator, and overfill protection to prevent any leakages or spills
- Closed dispenser housing protects against unauthorized access, mechanical damage, and extreme weather conditions
- Attractive shape & colour
- Made from high quality polyethylene, the tanks are also resistant to UV radiation, frost & heat and will maintain their integrity over many years
- Easily transportable by a forklift truck
- Filling line with dry disconnect is located at a working level making it significantly easier to use the tank
- A-FLO to provide service to our units Australia Wide
- Fleet Tank C/W 240V Transfer Pump, 6m Hose, Auto Nozzle, Auto Nozzle Holster, Digital Flow Meter, Overfill Protection, Digital Level Gauge, 2" Fill Point Dry Break Fitting & Leak Detection
- All equipment & spare parts to be stocked in Melbourne
- Guarantee: 10 Year Warranty on tank, 1 Year Warranty on equipment
