

# BLUEQUIP 240V ELECTRIC TRANSFER PUMP

The PIUSI SUZZARABLU PUMP AC is a very reliable diaphragm pump for AdBlue . It is equipped with electric motor without any dynamic seals. This creates a reliable industrial pump complete with self priming capabilities.

The materials used for the development of this AdBlue pump have been chosen to comply with ISO 22241 and to ensure a safe and reliable AdBlue transfer system. Body, rotor and gears are entirely made of technopolymers to ensure safe use during fluid transfer. With its flow rate of up to 32 l/min, Suzzarablu Pump AC ensures a working cycle of up to 20 minutes with excellent performance.

Suitable for use with AdBlue Antifreeze and windscreen

## FEATURES & BENEFITS:

- Hose connector "
- ON/OFF Switch
- 2 m cable with socket
- Self Priming
- Build In Bypass Valve
- Up to 32 LPM
- 20 Minute Duty Cycle
- Body: Polypropylene
- Diaphragm: Polypropylene

## SPECIFICATIONS:

Brand	Bluequip
Dimensions	36x30x20
Weight	7 Kg
Voltage	240V

### PART NO.

FP-203010

Bluequip 240V Electric Transfer Pump
