

# CLOSED BILATERAL SERVICE COLUMNS

The RAASM Closed Bilateral Service Columns for hose reels are ideal for workshop environments where access is required from both sides. They can be installed anywhere in the workplace and provide a unique solution where pipework can be hidden, giving the workshop a clean professional look.

## FEATURES & BENEFITS:

- Manufactured with top-quality materials and scratch-proof painting
- All service columns are fitted with full-width removable drip trays
- Available in 2 models - a 4-reel capacity model and a 6-reel capacity model
- Please note: Closed Bilateral Service Columns do not come with hose reels.
