

FUELBOX SELF BUNDED DIESEL TANKS

The FUELBOX Portable Fuel Storage Tanks are unique self-bunded Diesel storage tanks designed for transport and civil construction depots. These tanks are specifically designed with a small footprint in order to make them portable and easy for transportation. This also decreases the installation costs.

The FUELBOX Fuel Storage Tank is a very low-maintenance tank that saves you both time and money. These Fuel storage tanks come with a secure lockable Pump bay, making spillage negligible. You can customize your FUELBOX tank with Pumping equipment and tank gauging.

FEATURES & BENEFITS:

- Self-bunded Diesel Static storage tank specifically designed with a small footprint with space being a premium in transport & civil construction depots.
- Minimal installation costs and low maintenance save both your time & money
- Secure lockable pump Bay
- Flexible options with pumping equipment & tank gauging
- Portable Fuel Tank with Pump

APPLICATIONS:

- Fuel distribution
- Power generation
- Military transport
- Construction
- Transport
- Civil & Construction
