

GRAY OIL FILTER CRUSHER

A-FLO is a leading supplier of high-quality, effective safety products including the GRAY Oil Filter Crusher for a varying range of industries. We take the safety of Australian workers and the environment seriously, and therefore only select products for sale that reflect our dedication to safety and Australia/international guidelines.

Gray's Oil Filter Crushers are your best solution for getting rid of your oil filters economically, efficiently, and in an environmentally-friendly manner. There is a range of specifications that make Gray's oil crushers some of the most efficient available on the market. These include:

FEATURES & BENEFITS:

- Interlocking features prevent the door from opening until the ram is fully retracted
- A removable catch basin allows the crusher to be cleaned periodically
- 100% air operated ensures maximum efficiency for the crushing of the oil filter
- Extracts up to 95% of used oil from the filter
- Mounting stand included and no complicated setup or installation required
