

PIUSI E300 240V AC HI-FLOW TRANSFER PUMP

The PIUSI E300 is an electric pump suitable for all applications where high flow is required. The E300 is ideal for topping up and transferring diesel from bulk tanks or drums. An incorporated check valve in the suction port prevents siphon effect while ensuring automatic repriming.

FEATURES & BENEFITS:

- High-flow pump
- Sturdy structure
- Heavy-duty application
- IP44 rated protection
- Flow rate: 500LPM
- 2 In/Out connections - BSP Standard
- Self-priming
- Continuous duty
- 240V Power
- Power 1500 watt / 9.2 amp draw

SPECIFICATIONS:

Brand	PIUSI
Dimensions	220x420x330
LPM	300 LPM
Voltage	240 V
Weight	27 Kg

PART NO.

FP-E300
