

FILLRITE HEAVY DUTY REFUELING KIT

FEATURES & BENEFITS:

- Cast-Iron Construction heavy-duty, cast-iron construction provides unmatched durability, withstanding the harshest conditions out in the field or at the job site
- High Performance Fill-Rite s trusted rotary vane pump technology delivers 75L per minute, perfect for filling large equipment with fuel tanks sized at 75-302L
- Stationary Tanks powered by a 230V AC motor and equipped with a 50.8mm bung mount, this pump is ideal for wiring to a standard 230 volt AC electrical supply and installing onto stationary aboveground tanks
- Reliable Technology rotary vane technology naturally maintains its day one performance levels as it wears down from normal use, allowing for consistent performance over the entire life of the pump
- Long Life thermally-protected motor prevents overheating, ensuring your pump performs for years without worry
- Equipment Safeguard built-in mesh strainer filters out particulates in fuel, preventing damage to your equipment
- Limited Lifetime Warranty we stand behind our product with an industry-leading Limited Lifetime Warranty to protect your investment

SPECIFICATIONS:

Max Flow Rate	20 GPM / 75 LPM
Power Type	230V AC
Compatible Fluids	Diesel, Kerosene, Biodiesel up to B20, Gasoline up to E15, Mineral Spirits, Heptane, Stoddard Solvents
Inlet Size / Connection / Thread	1.25 " / Female / NPT
Outlet Size / Connection / Thread	0.75 " / Female / NPT

Mounting Size / Thread / Type	2" / NPT / Bung Mount
Duty Cycle (min)	30 min on / 30 min off
Drum Connection	2"
Dimensions	27x53x50
Weight	26 Kg

PART NO.

AF-FR-700VE 240V 76lpm Pump c/w manual nozzle
