

FUELSHOT HI FLOW BULK DIESEL NOZZLE

Our Bulk Diesel Fuel Nozzles are ideal for bulk transfer operations on fuel trucks or high volume contractor pumps.

FEATURES & BENEFITS:

- Aluminum Body- Light weight and easy to operate
- Two-position hold-open device
- One-hand control of hold-open mechanism- means easy setting of flow rate
- Easily replaced spout- simply removes the spout retainer nut
- Dual poppets- make nozzle easy to open against high inlet pressure
- Right angle design- provides large lever area for better grip and easier control, permitting the nozzle to fit into awkward space close to walls and into corners
- 100% Factory Tested.
