

FLOMAX FUEL NOZZLE DOG LOCK WITH SWIVEL AND PLUG

The FloMAX FN600 Fuel Nozzle features a patented modular back pressure sensor for reliable, repeatable shut-off every time. Built with all-metal construction, the FN600 flows over 180 GPM (682 LPM) with a 1 1/2" hose, and over 211 GPM with a 2" feed hose and high-pressure shut-off, making it the highest flowing 1 1/2" diesel nozzle on the market. Its easy-to-remove pullback assembly allows for quick field cleaning and service, minimizing downtime.

FEATURES & BENEFITS:

- Highest flow rate of any 1 1/2" diesel nozzle with a 1 1/2" hose
- All-metal construction with a durable stainless steel nose
- Patented modular back pressure sensor for consistent, repeatable shut-off
- Lightest diesel nozzle in the industry at 5 lbs 14 oz (2.7 kg)
- Factory-adjustable shut-off pressures
- "Dog Lock" attachment system for a secure, reliable connection to the receiver
- Easily cleaned and serviced in the field
