

# HOSEBUN HOSE HANGERS

HOSEBUN 'A patented urethane hose saddle designed to properly suspend hose'

Hoses are expensive! Especially industrial hoses. When our new HOSEBUN product is used, the hose manufacturer's maximum bend radius is protected and your new expensive hose is kept from kinking.

The HOSEBUN is by far, the most effective method to suspend hose in a permanent or temporary, semi-rigid position. It is a one time purchase, the cradle itself doesn't wear out!

## FEATURES & BENEFITS:

- HOSEBUN A patented urethane hose saddle designed to properly suspend hose
- Suspend hoses in a permanent, temporary or semi-rigid position
- Used in various industrial, and commercial sites, and applications
