

LUBESHOT REFILLABLE AUTOMATIC OIL LUBRICATORS

Lubeshot Refillable Automatic Oil Lubricators are oilers that can be used and refilled with all types and grades of oils. These lubricators are reusable, making them a market favourite!

Avoid constant disposal expenses with our Lubeshot Refillable Automatic Oil Lubricators! The Lubeshot-O100 & O-220 are oilers that can be used and refilled with all types and grades of oil. They preserve the same characteristics, advantages, applications, duration, and provisions of the Lubeshot-SR100 & SR-220 Series. Designed & installed everywhere a point to be lubricated is present.

FEATURES & BENEFITS:

- No battery or gas required
- Refillable via standard fitting
- No disposal expenses
- 4 feed rate settings
- Automatic
- High-strength transparent construction
- Applications: bearing, bushings, electric motors, compressors, mills, ovens & fans
