

ORION 5:1 RATIO PUMP

The ORION Pump is designed to tackle many applications requiring continuous operation, this pump is sure to outperform and outlast the competition.

FEATURES & BENEFITS:

- For larger size systems, car, truck workshops, lube trucks, or skids
- Stub Pump version can be wall or floor-mounted.
- Double air operated pump for oil and non-corrosive liquids.
- The 5:1 version is equipped with a pressure relief valve that protects the system components against excessive system pressures due to heat expansion.

SPECIFICATIONS OF DRUM PUMP:

Pressure	5:1
Total Length	1180 mm
Pump Tube Length	910 mm
Pump Tube Diameter	52 mm
Weight	6.5 Kg
Max Air Pressure	1.0 MPa / 145 psi
Min Air Pressure	0.4 MPa / 58 psi
Max Fluid Pressure	5.0 MPa / 725 psi
Burst Pressure Min	10.0 MPa / 1450 psi
Free delivery (Motor oil SAE 10-30 at 20 C and max air pressure)	38 l/min
Air inlet thread	1/4 BSP (F)
Fluid outlet thread	3/4 BSP (M)
Noise level at 0.7 MPa	84 dB
Drum adapter, G 2 (BSP 2)	Included
