

PIUSI 3000 SUPREME 12/24V DIESEL PUMP

The PIUSI 3000 SUPREME is a highly innovative device designed to grant full pump control and management from a smartphone app, thus helping users fill up with diesel from mobile tanks quickly and safely.

The PIUSI 3000 SUPREME combines new digital technologies with PIUSI's long and proven track-record in the design of fluid management systems such as pumps and flow meters. This new pump is designed to dispense diesel, measure the volume dispensed, manage operator access and solve the problems typically faced by users of transportable tanks.

FEATURES & BENEFITS:

- Bluetooth connection
- Total control via app
- Vibration resistance
- Low Noise
- Compatible with diesel up to B20 - HVO/XTL
- Continuous duty cycle
- +0.5% accuracy

SPECIFICATIONS:

Fluid Type	Diesel
Flow Rate L/min	50
DC Voltage	From 12 to 24
Fuse Capacity AMPERE	25A
Max Pressure	1.5 Bar

PART NO.

AF-FP-251H00	PIUSI 3000 Supreme 12/24V Diesel Pump Only with 10 Drivers (Horizontal Ports)
