

# PIUSI CUBE DIESEL BOWSERS

PIUSI CUBE series offers robust and reliable fuel transfer dispensers for non-commercial use. Designed for versatility, these units can be installed on walls, tanks, cisterns, drums, or as standalone systems with an optional pedestal. Each dispenser features a self-priming vane pump, integrated bypass valve, mechanical meter, and automatic nozzle for efficient and safe fuel dispensing.

## FEATURES & BENEFITS:

- Sturdy Structure – Built for durability in demanding environments.
- Mechanical Meter – Accurate measurement with  $\pm 1\%$  precision.
- Induction Motor with Thermal Protection – Ensures safe and continuous operation.
- Overload Protection – Prevents damage during heavy use.
- Built-in Mesh Filter – Protects pump and nozzle from contaminants.
- Weather Protection – Rated IP55 for outdoor use.
- Flow Rate – Up to 90 L/min for fast dispensing.

## SPECIFICATIONS:

Flow Rate	Up to 90 LPM
Weather Protection	Rated IP55
Type of Fluid	Diesel
Power	AC/DC Voltage
Accuracy	$\pm 1\%$
Temperature Range	+20°C to -6°C
Duty Cycle	30 min ON/OFF

## PART NO.

AF-FP-59100A	PIUSI Cube 70 240V Diesel Bowser 70LPM
AF-FP-592000	PIUSI Cube 90 240V Diesel Bowser 90LPM
