

PIUSI EX100

AF-FP-390030

PIUSI EX100 is the ATEX/IECEx certified AC pump of the EX line, delivering up to 100 l/min for the continuous duty transfer of gasoline, diesel and kerosene in standard industrial and logistic applications requiring explosion-proof equipment. The directive on the use of materials in potentially explosive atmospheres is very precise, as confirmed by the ATEX certification. PIUSI confirms its constant commitment in the search for solutions for the transfer of fluids, to enrich its line with products with high performance in the transfer and dispensing of explosive liquids.

PIUSI EX100 is the new transfer pump suitable for flammable fuels such as Gasoline, kerosene and diesel. It is simple to use, compact, versatile and adapts to any working conditions: you can use it wherever you need it most.

ATEX CERTIFIED QUALITY

The PIUSI EX100 Transfer pump is ATEX certified and complies with the current principles to prevent explosions inside or outside the pump, due to possible components that can trigger the transferred fluid or the surrounding atmosphere sometimes. PIUSI EX100 is safe, reliable over time and specific for the American market where ATEX certification is required in order to use transfer systems in potentially dangerous environments.

HIGH PERFORMANCE IN CONTINUOUS CYCLE

Together with the rest of the PIUSI EX range, the EX100 pump ensures high and particularly constant flow rates even when used in complex systems. The entire range is ATEX certified to ensure maximum safety even in explosive atmospheres.

The entire range is characterised by a high flow rate that works with a continuous duty cycle, and has been designed to be particularly suitable for heavy duty, i.e. for those demanding fleets that need to dispense fuels such as gasoline, diesel or kerosene quickly. Accessories are available for the whole line of new EX pumps, including: the remote kit, for the remote control of the electrical box with nozzle connection, and the fixing feet compatible with many applications.

FEATURES & BENEFITS:

- Premium 240v Pump EX rated
- Highly efficient pump can deliver up to 100LPM
- Self-priming and have an inbuilt bypass valve
- Optional extras: meters & auto nozzles

PART NO.		DIMENSIONS	WEIGHT
AF-FP-390030	Piusi EX100 Pump Only 100lpm - ATEX	40x20x36	22 Kg
AF-FP-391300	EX100 240V Drum Pump Kit 100LPM C/w 5m Hose and Auto Nozzle	60x40x28	25 Kg
AF-FP-391310	EX100 240V Drum Pump Kit 100LPM C/w 5m Hose, Mechanical Flow Meter and Auto Nozzle	60x40x28	25 Kg
