

# PIUSI EX140

PIUSI EX100 is the ATEX/IECEX certified AC pump of the The PIUSI EX140 is an ATEX/IECEX certified AC vane pump delivering up to 140 l/min in continuous duty for the transfer of gasoline, diesel and kerosene in potentially explosive atmospheres. Designed for heavy duty fleets and high-throughput dispensing operations, it is the high flow alternative to the EX100 for the most demanding fuelling environments.

## High performance in continuous cycle

Together with the rest of the PIUSI EX range, the EX140 pump ensures high and particularly constant flow rates even when used in complex systems. The entire range is ATEX certified to ensure maximum safety even in explosive atmospheres to the user.

The entire new EX line is characterized by a high flow rate that works with a continuous duty cycle, and has been designed to be particularly suitable for Heavy Duty, i.e. for those demanding fleets that need to dispense fuels such as Gasoline, diesel or kerosene quickly. Very important Accessories are available for the whole line of new EX pumps, including: the remote kit, for the remote control of the electrical box with nozzle connection, and the fixing feet compatible with many applications.

## FEATURES & BENEFITS:

- Continuous duty
- Thermal Protection
- High flow rate - Can deliver up to 140LPM
- UL Version Available
- Self-priming and have an inbuilt bypass valve
- 5m Hose, Auto Nozzels and/or Mechanical Flow Meter Available on selected models.
