

PIUSI EX56 PUMP

PIUSI PANTHER EX 56, the new AC fuel transfer pump that sets a new standard of excellence. Designed to offer robustness and reliability, it is ideal for those seeking a no-compromise solution.

In the context of an increasingly demanding market, where the quality of materials and performance are crucial, technological innovation is the key to ensuring efficiency and safety. From this need arises the PIUSI PANTHER EX, the new fuel pump transfer that sets a new standard of excellence. Designed to offer robustness and reliability, it is ideal for those seeking a no-compromise solution for fuel transfer.

Enhance the efficiency of your fuel transfer today. Choose PANTHER EX for superior quality, robustness, and performance.

FEATURES & BENEFITS:

- **Exceptional Flow Rate:** Thanks to advanced fluid dynamics engineering of its components, PANTHER EX ensures a constant flow even in complex systems with high back pressure.
- **Continuous Duty:** Equipped with a high-efficiency single-phase asynchronous motor, this diesel transfer pump allows for uninterrupted dispensing, making it perfect for refueling large vehicle fleets.
- **Built to Last:** Made with high-quality materials, PANTHER EX is designed to withstand the toughest working conditions, offering long-term durability and reliability.
- **Quick Installation:** The innovative design of this diesel transfer pump allows for fast connection to the tank, significantly reducing installation time.
- **ATEX Certified:** Among ATEX pumps for flammable liquids, PANTHER EX guarantees the highest level of safety for operating in potentially explosive environments.

SPECIFICATIONS:

Brand	PIUSI
Dimensions (mm)	400x240x300
Voltage	240V
Weight	12.4 Kg
Fluid	Diesel/HVO/XTL, Gasoline
Application	Mining & Construction, Logistic

PART NO.

AF-FP-580030

PIUSI EX 56 240V 50Hz Pump
