

PIUSI PITSTOP 45 REFUELLING KIT

The PIUSI Pitstop Refuelling Kit is a complete dispenser that can be installed on service trucks, pickup trucks, service trailers and refuelling vehicles.

Who said that a pitstop operation can only be done on the track? Each refuelling operation as well as vehicle assistance can be considered a pitstop. Even more so, in working situations. The PIUSI Pitstop Refuelling Kit is a complete dispenser that can be installed on service trucks, pickup trucks, service trailers, and refuelling vehicles. This Refuelling Kit is an all-in-one solution composed of - an automatic hose reel, 2 DC Pumps, a flexible hose, a water captor filter, and an ON/OFF switch.

FEATURES & BENEFITS:

- Available in 12V or 24V diesel pump
- Flow rate: 45LPM
- Automatic Hose reel
- Easy to install
- 14M x 3/4" hose
- Automatic diesel nozzle
