

PULSE OIL MONITORING SYSTEMS

The Pulse Oil Monitoring System simplifies how forward-thinking workshops track and manage bulk fluids in real time.

PULSE HUB FMS

Graco's intuitive software for Pulse Fluid Management has been custom developed to control every component within the Pulse network. Generated by the Pulse Hub you can connect to dispense meters, pump air controllers and tank level monitors.

FEATURES & BENEFITS:

- Easy-to-use software increases your productivity.
- No software to install – the Pulse Hub generates a local web page.
- Software automation ensures your system is always running smoothly.
- Eliminate worries while gaining total control.
- Uncover hidden profits.

PART NO.		DIMENSIONS (MM)	WEIGHT
AF-G-25D454	GRACO Pulse Hub FMS EU	137x30x16	13 Kg

PULSE REPEATER - FMS

Extend your Pulse fluid management network wirelessly with extenders. Extenders allow for larger shops to have more devices, secondary buildings and stronger network connections.

FEATURES & BENEFITS:

- Increase your productivity – use Pulse fluid management anywhere in your shop with an Extender or Remote Extender
- Everything you need, right out of the box. Simply plug in to power and connect with Ethernet or Wi-Fi if needed
- Flexible – two extender options whether you are extending an existing shop or a secondary building
- Wireless communication – receives signals from the meter, pump air control (PAC) and tank level monitor within 100-metre range
- Status lights – quickly verify extender is powered

PART NO.		DIMENSIONS (MM)	WEIGHT
AF-G-17F878	GRACO Pulse Repeater - FMS	180x80x140	1.7 Kg
AF-G-20A152	GRACO Pulse Pro Extender Repeater FMS AUS Wall Mount	110x110x110	1 Kg

PULSE AIR PUMP CONTROL UNIT

Graco's Pulse Pump Air Control (PAC) is integral to the Pulse fluid management system. These reliable devices prevent unauthorized access to fluid inventory.

FEATURES & BENEFITS:

- Ensure better inventory control
- Built with Graco quality for a long life
- When combined with other components of the Pulse fluid management system you'll improve shop efficiency
- Flexible – the PAC supports a variety pneumatic of pumps
- Installs easily – built-in mounting bracket
- Simple wireless setup – automatically identifies networks
- High-volume air valve supports a variety of pump

PULSE WIRELESS OIL GUN

Graco dispense meters designed for our Pulse® fluid management system are durable and easy to use. Everything you need is at your fingertips. Enter PINs and other data using the intuitive display.

FEATURES & BENEFITS:

- Track and record inventory levels with electronic metering
- Increase technician productivity
- Flexible – one meter can handle all fluids
- Reliable – time-tested Graco engineering
- Large, Intuitive Display – high-contrast display for low and bright light conditions
- Protective trigger guard – prevents accidental dispenses
- Four finger trigger with lock-on feature
- No need to leave bay or use computer to complete dispense
- Long battery life – uses 4 AA easy-to-replace batteries

PART NO.		DIMENSIONS (MM)	WEIGHT
AF-G-25M349	GRACO Pulse Wireless Oil Gun 1/2 BSPT Flex	410x180x140	3 Kg
AF-G-25M350	GRACO Pulse Wireless Gun 1/2 BSPT Flex Antifreeze	410x180x140	3 Kg
AF-G-25M354	GRACO Pulse Wireless Oil Gun 1/2 BSPT Flex HF 68 LPM	410x180x140	3 Kg
AF-G-25M360	GRACO Pulse Wireless Oil Gun 3/4 BSPT Flex HF 68 LPM	410x180x140	3 Kg

PULSE TANK LEVEL MONITOR

The Pulse tank level monitors accurately measure fluid levels in your largest tanks. Keep track of fluid levels throughout the day. Send low- or -high-level warnings by email.

FEATURES & BENEFITS:

- Easily track and record inventory levels with electronic monitoring
- Requires 4 AA batteries or optional remote power cord for operation
- 3 head mounting options (magnetic, wall, surface mount) and can be mounted up to 3 meters from tank bung for easier viewing
- Improves accountability and productivity
- Reliable time-tested Graco engineering
- Built-in display see real-time levels instantly with on-demand readings
- Simple wireless setup automatically identifies networks
- Optional wave guide kit for standoff installs

PART NO.		DIMENSIONS (MM)	WEIGHT
AF-G-2007428	GRACO Pulse - Tank Level Monitor	110x110x110	1 Kg

PULSE NFC TAGS FOR USERS

Program these NFC tags for total control of how much fluid goes into each asset. Assign one tag to each asset and one tag to each user to provide full visibility of the fluids being dispensed in your facility. There is no limit to the number of tags that can be issued at any given time - nor the amount of fluid that can be dispensed. NFC tags can also help prevent

FEATURES & BENEFITS:

- Assign one tag to each asset and one tag to each user
- Cards can be reprogrammed at any time based on needs and personnel

PART NO.		DIMENSIONS (MM)	WEIGHT
AF-G-131462	GRACO Pulse NFC Tags for Users - 25 pack	50x70x40	1 Kg
