

POLY DRUM RACKING SYSTEM

The Poly Drum Racking System is a versatile drum racking system that maximizes floor space by allowing you to stack up to 4 205L drums above a one-piece 400L sump.

FEATURES & BENEFITS:

- You can dispense from any one of the drums in the safe knowledge that any leaks or spills will be contained
- Fork Pockets on both units make the Drum Dispenser Stacker easy to transport. Maximum stack of 2 levels (4 drums).
- Stacker Unit and Base Unit purchased separately.
