

RAASM 1200 SERIES 75:1 RATIO GREASE PUMP

The RAASM 1200 Series 75:1 Ratio Grease Pump is a flanged pump built for highly viscous fluids such as grease and oil. These Pumps are built for 180Kg - 220Kg drums. The suction tube made of steel allows these pumps to dispense grease/oil from 180Kg drums. The RAASM 75:1 Ratio Grease Pumps hold the ATEX (ZONE 2) & ATEX (ZONE 22) certifications.

SPECIFICATIONS:

Flow Rate	4400 g/min
Ratio	75:1
Compatible fluids	High viscosity oils and greases
Suction tube upper body	Carbon steel
Suction tube	Carbon steel
Air inlet connection	G 1/2" (f)
Fluid outlet connection	G 1/2" (f)
Max supply pressure	8 bar
Max air consumption 8 bar	2,8 m3/min
Suitable for drums or tank	Suitable for drums 180 - 220 kg
Noise level	80 dB
Industries	Mining, Shipping and Manufacturing Industries
Certifications	ATEX (ZONE 2) & ATEX (ZONE 22)

PART NO.

AF-RA-116F/751

RAASM 1200 Series 75:1 Ratio 180kg Grease Pump

WEIGHT

21 Kg
