

RAASM 205L OIL DISTRIBUTION KIT

The RAASM 205L Workshop Oil Distribution Kits are ideal for small to medium size workshops looking to upgrade from hand pumps but also covers larger workshops that have additional 205L oil drums that need catering.

We have oil distribution kits to increase your workshop efficiency and effectiveness. These kits are ideal for small to medium size workshops looking to upgrade from hand pumps but also cover larger workshops that have additional 205L oil drums that need catering. They are exceptional value for money! Along with the kits we have a number of other options. Don't feel restricted, we can also custom-build to suit your specific requirements for your transfer application.
