

RAASM 4-WAY EVACUATION VALVE

A-FLO Equipment's 4-way Evacuation Valve can be used for both, extraction and discharge of fluids minimizing the use of multiple valves for such operations.

Our 4-way Evacuation Valve for Tanks is available in 2 models - 1" & 1 1/2"

FEATURES & BENEFITS:

- 4-Directional Control Valve used to simplify the filling and emptying of tanks
- Simplifies installation by eliminating the need for multiple valves
- Unrestricted flow, no pressure or volume loss
- Two-position tank fill and emptying control
- Provide a professional look, reduce pipework & installation time

SPECIFICATIONS:

Brand	RAASM
Seals	Viton
Pressure	14 Bar
Weight	3.5 Kg
Applications	Fresh Oils, Anti-freeze, Waste oils, etc

PART NO.		DIMENSIONS (MM)
AF-RA-38131	RAASM 1" BSP (f) 4-Way Evacuation Valve	130x130x130
AF-RA-38132	RAASM 1 1/2" BSP (f) 4-Way Evacuation Valve	160x200x160
