

RAASM 6:1 RATIO HIGH FLOW OIL PUMP

The RAASM 6:1 Ratio High Flow Oil Pump is an industrial air-operated oil pump for transferring fluids such as oils, lubricants & similar products over medium-long distances.

FEATURES & BENEFITS:

- Flow Rate: 80 LPM
- Seals: Polyurethane
- Fluids: Oils, lubricants & similar
- Provide high performance in capacity (LPM) & operating pressure
- High quality of components ensures lasting and reliable operation even in extreme conditions
- Suction Tube: Carbon Steel
- Suction Tube Upper Body: Carbon Steel
- Air Inlet Connection: 1/2" BSP (f)
- Fluid Outlet Connection: 1 1/2" BSP (f)

SPECIFICATIONS:

Brand	RAASM
Dimension	96x30x30
Litres	80 L
LPM	80 LPM
Weight	53 Kg

PART NO.

AF-RA-150D/61 RAASM 6:1 Ratio Pump - 80L/Min
