

RAASM 640 SERIES SPRING REWINDING HOSE REEL

The A-FLO Series 640 Spring Rewind Hose Reel is engineered for the safe and efficient dispensing of high volumes of diesel fuel, while also being suitable for oil and low-pressure water applications. Designed for demanding industrial environments, it is the ideal solution for refuelling heavy-duty equipment, service vehicles, bulk storage tanks, and mobile fuel trailers.

Manufactured in Italy by RAASM, the Series 640 features a heavy-duty painted steel construction and a specially designed protective spring housing that shields the rewind mechanism from dust, dirt, and harsh operating conditions. The spring assembly can be easily replaced when required, minimising maintenance downtime and extending product life.

An adjustable spring tension system allows the reel to accommodate different hose lengths and diameters, delivering smooth hose retraction and reliable performance in even the toughest working environments.

FEATURES & BENEFITS:

- Heavy-duty spring rewind mechanism for effortless hose management
- Designed specifically for high-volume diesel fuel transfer
- Suitable for diesel fuel, oil and low-pressure water
- Protective spring housing for maximum durability in harsh environments
- Adjustable spring tension to suit different hose lengths and hose diameters
- Heavy-duty painted steel construction
- High-flow brass swivel joint for reliable fluid delivery
- Viton® seals for superior chemical compatibility and leak protection
- Easy spring replacement for simplified maintenance
- Fixed mounting frame for secure installation
- Manufactured in Italy
- Backed by a 5-Year Manufacturer Warranty

SPECIFICATIONS:

Working Pressure	20 bar
Suitable Fluids	Diesel Fuel, Oil, Low-Pressure Water
Hose Capacity	20 m × 1¼" hose or 15 m × 1½" hose
Swivel Joint	Brass
Seal Material	Viton®
Main Frame	Fixed
Construction	Heavy-Duty Painted Steel
Inlet Connection	G 1½" Female
Outlet Connection	G 1½" Female
Flow Path	Brass / Zinc-Plated Steel
Overall Dimension (mm)	645x703x678

PART NO.

AF-RA-8640.600

RAASM 600 Series Bare Reel 20Bar - 15m x 1.5" / 20 m x 1.25"
