

# RAASM 8:1 RATIO HIGH FLOW OIL PUMP

The RAASM 8:1 Ratio High Flow Oil Pump is an industrial air-operated oil pump for transferring fluids such as oils, lubricants & similar products over medium-long distances.

## FEATURES & BENEFITS:

- Flow Rate: 65 LPM
- Seals: Polyurethane
- Fluids: Oils, lubricants & similar
- Provide high performance in capacity (LPM) & operating pressure
- High quality of components ensures lasting and reliable operation even in extreme conditions.
- Suction Tube: Carbon Steel
- Suction Tube Upper Body: Carbon Steel
- Air Inlet Connection: 1/2" BSP (f)
- Fluid Outlet Connection: 1 1/2" BSP (f)

## SPECIFICATIONS:

Brand	RAASM
Dimension	96x30x30
Litres	65 L
LPM	65 LPM
Weight	56 Kg

## PART NO.

AF-RA-180D/81      RAASM 8:1 Ratio Pump - 65L/Min
