

# RAASM OPEN BILATERAL SERVICE COLUMNS

The Open Bilateral Service Columns provide outstanding strength and can be used with a number of reels, installed anywhere in a workplace and allow access from both sides of the gantry.

This state-of-the-art Open Bilateral Service Column has become the no.1 choice for many workshops.

## FEATURES & BENEFITS:

- The unique flat packed, easy to build, quick to install, and great looking service column has quality written all over it.
- It provides outstanding strength and can be used with a number of reels, installed anywhere in a workplace, and allow access from both sides of the gantry.
- Pipework can be installed from the ceiling or floor in which it can be hidden. This provides an excellent finish.
- These columns are made from top-quality materials, with scratchproof painting, and full-width drip trays.
- Note: Open Bilateral Service Columns do not come with hose reels.
