

SAR-GEL BLUE WATER FINDING PASTE

SAR-GEL BLUE Water Finding Paste provides a fast, reliable way to detect water in the bottom of storage tanks containing diesel, jet fuel, fuel oil, biodiesel, gasoline and gasoline/ethanol blends containing up to 15% ethanol.

The orange paste turns blue once it comes into contact with water

FEATURES & BENEFITS:

- Water indicating paste shows the presence of water in fuel storage tanks containing diesel & ULP fuels
- CMR-free, nontoxic formula
- Fast reaction time
- High contrast colour change from orange to dark blue
- Suitable across various fuel types
- Works especially well with ethanol blend systems - up to 15% ethanol

SPECIFICATIONS:

Brand	A-FLO Equipment
Dimensions	14x4x4
Weight	0.05 Kg

PART NO.

AF-SG-FT0001
