

# ULTRAFLO ALUMINIUM METER WITH 4 DIGIT MECHANICAL REGISTER

ULTRAFLO Medium Capacity Flow Meter has been designed for tough Australian conditions. These Meters come with a 2 year warranty.

The OM Series Mechanical Meters come with a 4 digit resettable display, as well as a non-resettable accumulated total, mounted in a rugged aluminium housing. Requiring no power, the OM Series Mechanical Meters are perfect for long term deployment without needing to replace batteries, or in areas where no power is available.

Suitable for applications for safe area metering of fuel oils, lubricants, and other non-flammable viscous chemicals.

Product comes calibrated with standard calibration certificate.

## FEATURES & BENEFITS:

- Designed and manufactured for Australian conditions
- Available in 1 , 1 1/2 & 2 models (BSP FM Thread)
- All metal rotors
- IP67 Mechanical display
- 2 year warranty
- Intrinsically safe
- High accuracy oval gear technology with low pressure drop can be used in gravity-fed applications
- No requirement for flow conditioning or straight pipe runs makes them the ideal for compact installations with limited space
- Robust aluminium mechanical registers

PART NO.		DIMENSIONS	FLOW RATE	WEIGHT
AF-UF-25A-M	ULTRAFLO 1" Aluminium Meter w/4 Digit Mech Reg (10-150LPM) BSP FM Thread	22x18x18	150 LPM	4 Kg
AF-UF-40A-M	ULTRAFLO 1 1/2" Aluminium Meter, 4 Digit Mech Reg (15-250LPM) BSP FM Thread	28x31x35	250 LPM	7 Kg
AF-UF-50A-M	ULTRAFLO 2" Aluminium Meter, 4 Digit Mech Reg (30-450LPM) BSP FM Thread	28x31x35	450 LPM	8 Kg
