

FLUIDLEV

FLUIDLEV GATEWAY SOLAR/BATTERY POWERED ATG

The FLUIDLEV Gateway is an advanced, solar-powered fluid measurement device for multi-tank management, with quick and easy installation. It connects via mobile network to Clarity cloud software and serves as a master control unit for FluidLev LB, probes, and sensors.

SPECIFICATION:

Supply Voltage:

3.7V 18650+Rechargeable Lithium Battery or 5VDC
(Using power pack)

Operating Temperature Range:

-25°C to 55°C

Humidity Range:

95% noncondensing

Ingress Protection Rating (IP):

IP65 (when appropriate glands are used)

FEATURES & BENEFITS:

- Advanced fluid measurement and reporting solution
- Single tank mountable device and base station with solar power and built-in battery
- 5V DC power pack optional for info or applications
- Clarity management software via multiple mobile connection options
- Acts as a master control unit for FluidLev LB, probes and sensors
- Quick installation with a quick mount bracket and drop-in tank sensor
- Easy setup with installer magnet and audible feedback
- Ideal for multi-tank solutions and future expansion
- Designed for efficient installation and troubleshooting
- Multiple check in modes

APPLICATIONS:

- Primary industries
- Infrastructure industries
- Service Sector
- Industrial Sector
