FLUIDLINK®

MICRO MC70 RETROFIT FMS

The FLUIDLINK MICRO Controller is a single hose/pump fluid management solution. It utilises our intuitive cloud based FLUIDLINK management software. Using the inbuilt stainless-steel keypad and RFID reader and add on optional card readers and Bluetooth readers, the user can choose between a large range of access IDs and can configure the system with a vast range of security profiles to ensure all required fuel tracking and security is logged and managed.

MC70 Retrofit - designed to replace the basic fuel management system on an MC70 pump system while utilising the existing pump and flowmeter. The retrofit kit comes with a new front door complete with MICRO controller, user panel, and a plastic nozzle holder. Extremely quick to change over and get up and running.

APPLICATIONS:

· Primary industries
· Infrastructure industries
· Service Sector
· Industrial Sector

SPECIFICATION:

Supply Voltage:
240V
Operating Temperature Range:
-25°C to 55°C
Humidity Range:
95% non-condensing
Ingress Protection Rating (IP):
IP65 (when appropriate glands are used)

FEATURES & BENEFITS:

· Full stainless steel construction
· Backlit super tough stainless steel keypad
· Monochrome Graphics Display with white backlight
· Sunlight readable screen
· Inbuilt RFID reader
· Single pump, non expandable
· Clarity, our real-time (online) intuitive management software
· Inlet & outlet 1" BSP
· Up to 8000 users per dispenser with the MICRO
· Up to 100 security profiles (how fuel is accessed)
· 80,000 transaction memory buffer
· Battery-backed, never lose part transactions on power failure
· Extensive diagnostic capabilities
· Includes Antenna (FL-570176) & 20 FOB keys (FL-826109)
