

# FLUIDLINK®

## SNAP-TL-PEM

The FLUIDLINK SNAP-TL-PEM is an expansion module for the SNAP-FM-AFM offering the ability to control and dispense the flow of fluid from an additional pump, whilst utilising the existing SNAP-FM-AFM control system. Complete with pump, flowmeter, nozzle switch, and a cloud connected ATG sensor, the SNAP-PEM is quick and easy to install. The LCD display shows transaction amount and tank level, making it super easy to use.

### APPLICATIONS:

- Primary industries
- Infrastructure industries
- Service Sector
- Industrial Sector

### SPECIFICATION:

**Supply Voltage:**

240V

**Operating Temperature Range:**

-25°C to 55°C

**Humidity Range:**

95% non-condensing

**Ingress Protection Rating (IP):**

IP65 (when appropriate glands are used)

### FEATURES & BENEFITS:

- Supports connection of an extra pump to the Fluidlink SNAP-FM-AFM controller
- Stainless steel construction Clarity, our real-time (online) intuitive management software
- Multiple mobile communication options for optimum coverage range
- Cloud-connected tank gauge for real-time monitoring
- Compatible with various industry-standard pump types and configurations, including DEF (AdBlue) and Diesel
- LCD display showing transaction amount, tank level Inlet & outlet 1" BSP
- Designed for easy installation and troubleshooting
- Compatible with Fluidlink flow meters and tank gauging

### PART NO.

FL-570691	KIT - SNAP-TL-PEM Piusi E80 Diesel Pump, PD Flowmeter, PA80 Nozzle, 6MT Diesel Hose, 6MT ATG Sensor & 20 RFID Keychain Tags including SIM & 3-Year Pro Web Reporting Access.
FL-570687	KIT - SNAP-TL-PEM Piusi E120 Diesel Pump, PD Flowmeter, PA80 Nozzle, 6MT Diesel Hose, 6MT ATG Sensor including SIM & 3-Year Pro Web Reporting Access
