MAKING EVERY DROP COUNT

WASTE OIL TANKS FOR EFFICIENT MANAGEMENT

Efficient waste oil management is key in industries with daily lubrication and refuelling tasks. A-FLO's solutions ensure safe, efficient, and compliant storage. Our waste oil containers are tailored helping you manage waste oil safely and meet environmental regulations.

WASTE OIL TANKS TAILORED TO YOUR NEEDS

A-FLO recognises that every business has unique needs for workshop equipment and waste oil management. We provide customisable waste oil tanks and containers that fit your space and operational requirements, offering a professional look and replacing outdated drums or IBCs. For refuelling service vehicles, see our diesel fuel tanks to ensure efficient fuel management.

SOLVE CHALLENGES WITH INNOVATIVE WASTE OIL CONTAINERS

Our waste oil storage solutions address several challenges faced by corporations and businesses:

Designed to fit to your space:
Custom dimensions and equipment placement options ensure that our waste oil tanks fit perfectly in your available space.

Environmental Compliance:
Secure storage minimises the risk of leaks and spills, helping your business comply with environmental regulations.

Operational Streamlining:
Replacing multiple storage containers with a single, larger tank reduces clutter and simplifies waste oil management processes.

Ready to purchase product range:
Visit our website to explore our extensive range of waste oil storage containers and AdBlue® tanks for practical fluid storage.

WHY CHOOSE A-FLO'S WASTE OIL TANKS

Customisation:

From the waste box location to the colour of the powder coating, you have the power to design a tank that fits your exact specifications. For operational convenience, decide where you want specific features, such as the waste box or filter drain box.

Quality and Durability:

Our waste oil storage tanks are built to last for long-term reliability and safety.

Add-Ons for Efficiency:

Opt for additional features like side steps for easy access, enhancing the functionality of your waste oil storage solution.

Expert Support:

Our committed team of experts is ready to assist you in choosing the suitable waste oil container, ensuring you get the most effective solution for your business.

BUILD A FUNCTIONAL SYSTEM AROUND YOUR WASTE OIL TANK

Integrating A-FLO's waste oil storage tanks into your workshop setup enhances not just your waste oil management but also the overall efficiency and compliance of your operations. Improve your vehicle service pit workflow with waste oil containers to facilitate easier access for maintenance and oil changes.

You can complement this setup with compressed air pipe and fittings so all your pneumatic tools operate at peak efficiency, streamlining the service process further. When you have a system that works for your business, you can boost productivity, ensure environmental compliance, and elevate the overall functionality of your workshop.

CONTACT US TO UPGRADE YOUR WASTE OIL CONTAINERS TODAY

Create a waste management that works for your business with A-FLO. Our passionate team is ready to provide tailored advice and solutions that bring efficiency, compliance, and professionalism to your workshop. Browse our website or give us a call, and take the first step towards optimising your waste oil management with A-FLO.
