HIGH-QUALITY VEHICLE HOISTS & LIFTS FOR HEAVY VEHICLES

Discover quality hoists and lifts designed for heavy vehicle, bus, and truck workshops.

At A-FLO Equipment, we offer a comprehensive range of solutions to meet all your lifting needs, including Mobile Column Lifts, Heavy Vehicle Column Lifts, Heavy Vehicle In-Ground Lifts and Heavy Vehicle 4 Post Hoists.

WHY CHOOSE A-FLO EQUIPMENT?

A-FLO Equipment provides premium, reliable hoists and lifts tailored for the demanding environment of heavy vehicle workshops and dealerships across Australia. Each product is crafted with advanced safety features and is designed to handle the rigorous needs of busy automotive facilities. Whether you need a heavy-duty solution for trucks or buses, you'll find your ideal equipment solution at A-FLO Equipment.

THE A-FLO EQUIPMENT ADVANTAGE

EXCEPTIONAL QUALITY AND CRAFTSMANSHIP:

A-FLO Equipment is known for its high-quality workshop lifts, including dealership-grade hoists and four-post systems sourced from leading manufacturers worldwide. Our experts are available to guide you in selecting the right equipment with superior craftsmanship and long-term durability.

AFTER-SALES SERVICING AND MAINTENANCE:

A-FLO Equipment offers extensive after-sales services, including online service manuals, equipment servicing, maintenance, and a variety of accessories to tailor your hoists to specific workshop needs. Contact our team to find out more about our service and maintenance programs.

JARVIS TOYOTA SA

MAKING EVERY DROP COUNT

For advice on selecting the right hoists for your workshop, reach out to A-FLO Equipment on 1300 235 623 or email us at sales@aflo.com.au.

With proper care and maintenance, the batteries on mobile column lifts can last for many years and up to 20 cycles, as long as the manufacturer's charging recommendations are followed.

Adhering to these guidelines is crucial to avoid battery issues.

If the battery runs low or depletes, you can still lower the hoists using the following methods:

Charge the hoists while they are in operation

Adjust the low battery level parameter in the hoist software to extend operating time with the remaining battery power.
