

A-FLO DUAL ARM VERTICAL DRUM LIFTER

EFFICIENT AND SECURE DRUM HANDLING

The Dual Arm Vertical Drum Lifter is built for reliable, effortless handling of 205-litre (44-gallon) drums in industrial environments. Its durable steel construction and dual-arm design ensure drums remain stable during lifting, positioning, and transport. Ideal for use with forklifts, cranes, or hoists, this lifter offers the perfect balance of safety, strength, and simplicity—making drum management faster and more efficient in workshops, warehouses, and manufacturing facilities.

FEATURES & BENEFITS:

- Designed for lifting 205 litre (44 gallon) drums with closed head drums or drums with lids
- Must be lifted in the vertical position
- Black in colour
- Unit weights 5kg
- WLL 500kgs
