

# QUICK RELEASE GREASE COUPLER

NPT AND BSP

The ULTRAFLO Quick Release Grease Coupler will revolutionise the way you grease. In one simple click you can disconnect the coupler from the grease nipple.

Try the ULTRAFLO Quick Release Grease Coupler, you will never have a grease coupler get locked onto a grease nipple ever again with an in-built relief valve! These Grease Couplers have a maximum PSI of 15,000 PSI.

## FEATURES & BENEFITS

- Simplified handling of the grease gun
- Quick and simple connection
- Easy to use in small spaces
- Integrated relief valve
- Made of premium steel
- High precision machined part
- No seals or jaws to wear and replace
- No leakage
- No lever needed
- Quick grip onto any sized grease nipple
- Allows both hands for grease gun operation

## SPECIFICATION:

### Maximum Working Pressure:

15,000 PSI - BSP

10,000 PSI - NPT

### Thread size:

1/8"
