

PIUSI WATER CAPTOR

WATER ABSORBING FUEL FILTER

PIUSI WATER CAPTOR is a high-efficiency fuel filter designed to absorb residual water particles from diesel and other compatible fluids. Its replaceable cartridge ensures continuous filtration performance and easy maintenance. Available for flow rates of 70 L/min and 150 L/min, with 1" BSP fittings.

FEATURES & BENEFITS:

- **Water Absorption:** Removes water particles from fuel to protect engines and equipment.
- **Replaceable Cartridge:** Easy maintenance and cost-effective operation.
- **High Efficiency:** 200 β / 30 μ m filtering capacity for superior protection.
- **Compact Design:** Small size for easy installation in tight spaces.
- **Versatile Options:** Available for different flow rates and configurations.

SPECIFICATIONS:

Flow Rate	70 L/min (18.5 GPM) 150 L/min (39.6 GPM)
Inlet/Outlet	1" BSP
Water Absorption	Yes
Filtering Efficiency	200 β / 30 μ m
Max Pressure	3.5 bar
Materials	Absorbent filtering paper
Weight	2.3–2.4 kg (filter units)
Dimensions	390 x 285 x 140 mm

PART NO.

AF-FP-611020	PIUSI Water Captor (CFD-150-30)
AF-FP-611010	PIUSI Water Captor (CFD-70-30)
