**Safety measure slips** are on the spout of the pump. This allows operator to pump and extract quantity of chemical without chance of chemical contact or spillage. When detached the safety measurers own no-loss safety cap is attached. The Unique two way graduations on the safety measure allow measurements whilst actually pumping from the container. It is even supplied with a label ready for writing the chemical name on.

**Not for petrol or solvents**  
EZI-Action pumps are made from polypropylene. Polypropylene is suitable for agricultural chemicals, cleaning liquids, Acids, Alkalis, Oil, Diesel, Lubricants and liquids with mild solvents in them. The pumps are not suitable for petrol or highly flammable solutions and other liquids. If unsure about the nature of the liquid you intend to pump contact A-FLO Equipment on 1300 235 623.
