# A-FLO High Level Diesel Oil Tank Alarm

## Features & Benefits

- Suitable for steel or plastic tanks
- Unlike most compact alarms on the market today, it's a constant monitoring alarm and not a "push to test" type
- Suitable with heating oil, diesel and biodiesel blends up to B100, oils & water
- Battery operated (battery supplied, type PP3 x1)
- Weatherproof to IP65
- Compact design for use in confined spaces (90mm square)

## Features & Benefits

- High power alarm sounder 97dB at 1M
- Flashing light on top of unit
- Mute button stops the sounder & light still flashes
- Float switch supplied with 5M cable
- 2 year battery life, if tested weekly with no alarms

## Part No.

## Description

AF-HFE-HLA001

A-FLO High Level Diesel/Oil Alarm C/W Sensor & 5M Cable
